# KRISHA ALKESHBHAI PATEL

**Email:-** pkrisha503@gmail.com

**Linkdin :-** www.linkedin.com/in/krisha-patel-57a2702ab

**Mobile:-** 8401705815

## EDUCATION

**Ganpat University** — **Gujarat,India**
Bachelor of Science Information Technology (IMS) — Pursuing
**Gyanda Girls High School** — **Gujarat,India**
STD 12 GHSEB – 85. 86% — 2022

## SKILLS SUMMARY

- **A+:-** Escanding, Discanding , troubleshooting on all thb components.
- **N+:-** Types of network, topologies, OSI layer, trouble shooting of network.
- **Server:-** routing, switching, static and dynamic routing, shell scripting
- **Platforms :-** Visual Studio Code, VMware, Oracle
- **Programing Languages:**- C, java, python, HTML, CSS, ASP.NET
- **Soft Skills :-** Good Communication, Collaboration, Creative Problem-Solving

## PROJECT

**Foody.com is web page design using HTML,CSS and Java Script**

- Designed and developed a responsive and interactive website, **Foody.com**, using HTML, CSS, and JavaScript.
- Implemented user-friendly interfaces to enhance the browsing and ordering experience for customers.
- Developed features like dynamic menu display, product filtering, and shopping cart functionality using JavaScript.
- Ensured cross-browser compatibility and optimized the website for various devices and screen sizes.
- Applied best practices in web development, including clean and modular code structure.

**Configure A Network Using OSPF in Packet Trace**

- Configured a scalable network topology in Cisco Packet Tracer using the **OSPF (Open Shortest Path First)** protocol.
- Designed and implemented multi-area OSPF to optimize routing and enhance network efficiency.
- Conducted troubleshooting to resolve connectivity issues and ensure stable network communication.
- Verified routing table entries and OSPF neighbor relationships for accurate path selection.
- Documented network design and configurations to support future maintenance and scalability.

## CERTIFICATE

**Networking Basics Course** |C:\Users\pkris\Downloads\Certificate1.pdf — **February 01, 2024**

- Explain important concepts in network communication, network types , components, and connection.
- Explain the importance of standards and protocols in network communication.

**Introduction To Data Science** | C:\Users\pkris\Downloads\Certificate2.pdf — **February 07, 2024**

- Explain the promise and challenges of data analytics.
- Explain the role of data in AI and Machine learning.
