PAYAL KUTANA

Software Engineer | Backend Development | Django | RESTful APIs | Cloud Technologies

payal.jb.1999@gmail.com 🔗 **https://www.linkedin.com/in/payalkutana/**

SUMMARY

Software Engineer with 4+ years building scalable Django systems, including RESTful APIs that powered 5k+ user interactions. Optimized PostgreSQL queries for 40% faster performance and integrated AWS for enhanced scalability. Experienced in delivering high-quality software solutions through collaboration and innovative technology.

EXPERIENCE

Freelance Software Engineer

Freelancing

🗓️ 08/2024 - Present

- Developed and maintained web applications using Django, adhering to the MVT (Model-View-Template) architecture.
- Designed and developed templates in Django.
- Created RESTful APIs using Django Rest Framework.
- Utilized databases such as MySQL, PostgreSQL, and SQLite.
- Performed testing on developed modules to ensure tangible results.

Member of Technical Staff

SARAS-3D

🗓️ 04/2023 - 08/2024 📍 Ahmedabad

- Developed and maintained web applications using Django, adhering to the MVT architecture.
- Designed and implemented RESTful APIs to support front-end web applications.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Utilized SQL databases (e.g., PostgreSQL, MySQL) for data storage and management.
- Conducted code reviews and provided mentorship to junior developers.
- Designed and developed various scripts to support content development and deployment processes.
- Designed and developed RESTful APIs to facilitate app features and content display.
- Integrated AWS services, third-party payment gateways, and databases to enhance system functionality, scalability, and performance.
- Developed module in Angular to upload content on server.
- Improved API response times by 25% through optimization.

Software Engineer

Bacancy Technology

🗓️ 01/2021 - 02/2023 📍 Ahmedabad

- Served as a Backend Developer, leveraging Python and Django to build scalable systems.
- Built REST APIs using Django Rest Framework (DRF) for seamless communication.

KEY ACHIEVEMENTS

💎**Junior Developer Mentorship**
Mentored 5 junior developers and improved team productivity by 25%.

💎**Payment Gateway Integration**
Integrated Razorpay, increasing online transactions by 40% within two months.

💎**User Engagement Boost**
Implemented push notifications, resulting in 60% increase in user engagement.

PROJECTS

Saras360

Saras360 applications provide interactive and engaging learning experiences designed to captivate users.

- Worked closely with content development and app development teams to define server process flows.
- Participated in daily meetings with the project manager for progress updates.
- Engaged in weekly strategy meetings to communicate updates and align objectives.
- Integrated Razorpay Payment Gateway for seamless and secure online transactions.
- Implemented push notifications, SMS, and email integrations.
- Developed and managed features for user exams, ensuring a robust process.
- Created classroom management tools for effective teaching experiences.
- Analyzed user data for valuable
- insights through user analytics.
- Designed and implemented a grade-based subscription model.
- Designed FrontEnd & Backend Module For Content Upload System.

- Diagnosed and resolved issues in existing APIs to improve functionality.
- Worked with various databases including MySQL, PostgreSQL, and MongoDB.
- Implemented JWT Authentication and Google OAuth for secure, seamless user access.
- Have knowledge of Django Multi tenant schema, GIL.

EDUCATION

M.Sc. (CA & IT)

K. S. School of Business Management & Information Technology

🗓️ 06/2016 - 03/2021 📍Ahmedabad

SKILLS

- ➢ **Python**
- ➢ **Django Rest Framework**
- ➢ **Angular**
- ➢ **PyQt5**
- ➢ **RESTful API Development**
- ➢ **MVT Architecture**
- ➢ **Front-End and Back-End Integration**
- ➢ **MySQL, PostgreSQL,MongoDB, SQLite**
- ➢ **AWS (S3, EC2, Lambda, RDS, WAF)**
- ➢ **SVN**
- ➢ **Git**
- ➢ **JWT Authentication**
- ➢ **Google OAuth**
- ➢ **Razorpay Payment Gateway Integration**
- ➢ **Code Review, Module Testing**
- ➢ **JavaScript, HTML, CSS**
- ➢ **Team Collaboration**
- ➢ **Agile Development**
- ➢ **Mentorship**

PROJECTS

Time Tracker App

The Time Tracker App helps users track their working hours efficiently.

- Developed offline sign-in functionality for seamless access.
- Implemented user authentication using Google OAuth2.
- Engineered the system to track idle time and working time based on activity.
- Integrated essential user features for enhanced usability.
- Utilized PyQt5 and HTML for a user-friendly interface.
- Developed an automatic time syncing facility for accurate records.

Book On Rent

The Book on Rent web application allows users to rent books affordably.

- Designed and maintained the book data storage system using MongoDB.
- Developed features for admin users to efficiently manage book records.
- Implemented Twilio SMS integration for rental confirmation messages.
- Developed an email notification system for book availability.
- Implemented user authentication for secure access.
- Created book listing features for displaying available books.
- Developed a 'Request a New Book' feature for users.
